

EGD with Bravo Instructions ***Remain on PPI Medications***

Strict compliance with these instructions is necessary to ensure a safe and complete exam.

Medication / Diet / Tobacco Instructions: It is very important you read this section carefully. If you have any questions regarding your medications please call the MDTEC procedure coordinator at 410-224-3636.

- **10 days prior** to your procedure (at a minimum): you must stop taking Phentermine, or any medication containing Phentermine, such as Qsymia, Qnexa, Adipex-P, Suprenza, Fastin, or Phentercot.
- **7 days prior** You must stop taking all iron supplements, vitamins, minerals and herbal supplements.
- **Blood Thinner Medications:**
 - **Stop** taking ibuprofen, Advil, Aleve and NSAIDs **at least 5 days prior** to your procedure
 - **You MAY continue to take:** once daily aspirin (81mg or 325mg daily)
 - **If you take Coumadin, Plavix, Pradaxa, Xarelto, Eliquis or other blood thinners:** You must stop these medications 5 days prior to your procedure with the approval of your prescribing physician. **Contact our pre-operative nurse for specific instructions at 410-224-3636- option "2"**
 - You may take Tylenol as needed.
- **No smoking the day of procedure.**
- **Blood Pressure and Heart medications:** Continue to take these medications as directed. Take them the day of your procedure with a **small sip of water** no less than 2 hours before procedure.
- **Acid Reflux medication:** Continue to take your acid reflux medication as directed. Take your medication the day of your procedure with a sip of water no less than 2 hours before procedure.
- **Diabetic medication:**
 - If you are taking diabetic medication by mouth, cut your dose in half the day before the procedure.
 - If you are taking insulin, reduce your insulin dose(s) to half the normal amount the day before the procedure.
 - If you have an insulin pump, please check with the prescribing physician (PCP or endocrinologist) for specific instructions.
 - Do not take any diabetic medication or insulin on the day of your procedure.
- **Bring a complete list** of your medications. **Also bring** your **blood pressure medicine** and **inhalers** with you on the day of your procedure.

**Important!!**

EGD with Bravo Instructions ***Remain on PPI Medications***

The Day of Your Scheduled Procedure:

- ❖ **Starting at midnight (12am)—NOTHING to Eat**
- ❖ **You may only have sips of water up until 4 hours before your procedure.**
- ❖ **Stop drinking all fluids 4 hours prior to your procedure.**
- ❖ **If you come to MDTEC drinking fluids, your procedure will be cancelled.**

Please be aware: If you have any questions or concerns regarding these instructions, please call the procedure coordinator at 410-224-3636 for further guidance. If you call before we arrive for the day, please leave a message and we will call you back as soon as we are able.

You must have a responsible driver who is 18 or older to accompany you and drive you home.

A taxi or shuttle is not an approved means of transportation **unless you have** a family member or friend with you. You may not drive until the day after your procedure. If you do not arrive with a driver, your procedure will be rescheduled, and you may be charged a cancellation fee.

After Discharge:

1. This monitoring test will last for 48 hours.
2. Please refer to the Bravo pH Recorder Discharge Instructions given to you at discharge.
3. Once you leave MDTEC, you may continue your medications as directed, eat, drink and go about your normal daily routine.
4. After the test has been completed, the diary and Bravo Receiver must be returned to DDA in Suite 201 at the Annapolis location.
5. You should **not** have an **MRI for 30 days after this procedure.**
6. You can expect your results in approximately 10-14 days.
7. If you have any questions, please call 410-224-4887.
